

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

Issue date: 03/01/2019

Revision date: 07/17/2020

Version: 1.1

### SECTION 1: Identification

#### 1.1. Product identifier

Product form : Mixture  
Product name : SWEET RENDEZVOUS  
CAS-No. : MIXTURE  
Product code : #51349  
Product group : Formula

#### 1.2. Recommended use and restrictions on use

No additional information available

#### 1.3. Supplier

Belle Aire Creations  
1600 Baskin Road  
Mundelein, IL - USA  
T 800-373-4709 - F 847-816-7695  
[SDS@belleairecreations.com](mailto:SDS@belleairecreations.com) - [www.belleairecreations.com](http://www.belleairecreations.com)

#### 1.4. Emergency telephone number

Emergency number : INFOTRAC (US & Canada) 1-800-535-5053 | (International) 1-352-323-3500

### SECTION 2: Hazard identification

#### 2.1. Classification of the substance or mixture

##### Classification (GHS CA)

Skin corrosion/irritation Category 2 H315 Causes skin irritation  
Serious eye damage/eye irritation Category 2 H319 Causes serious eye irritation  
Skin sensitization, Category 1 H317 May cause an allergic skin reaction  
Reproductive toxicity Category 2 H361 Suspected of damaging fertility or the unborn child

Full text of H statements : see section 16

#### 2.2. GHS Label elements, including precautionary statements

##### GHS CA labeling

Hazard pictograms (GHS CA) :

Signal word (GHS CA) : Warning

Hazard statements (GHS CA) : H315 - Causes skin irritation  
H317 - May cause an allergic skin reaction  
H319 - Causes serious eye irritation  
H361 - Suspected of damaging fertility or the unborn child

Precautionary statements (GHS CA) : P201 - Obtain special instructions before use.  
P202 - Do not handle until all safety precautions have been read and understood.  
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray.  
P264 - Wash hands, forearms and face thoroughly after handling.  
P272 - Contaminated work clothing should not be allowed out of the workplace.  
P280 - Wear protective gloves/protective clothing/eye protection/face protection.  
P302+P352 - IF ON SKIN: Wash with plenty of water.  
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P308+P313 - IF exposed or concerned: Get medical advice/attention.  
P321 - Specific treatment (see supplemental first aid instruction on this label).  
P332+P313 - If skin irritation occurs: Get medical advice/attention.  
P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.  
P337+P313 - If eye irritation persists: Get medical advice/attention.  
P362+P364 - Take off contaminated clothing and wash it before reuse.  
P405 - Store locked up.  
P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

#### 2.3. Other hazards

No additional information available

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

### 2.4. Unknown acute toxicity (GHS CA)

No data available

## SECTION 3: Composition/Information on ingredients

### 3.1. Substances

Not applicable

### 3.2. Mixtures

| Name                                                                   | Chemical name / Synonyms                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Product identifier   | %      | Classification (GHS CA)                                                                                                     |

### SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

|                                       |                                                                                                                                                                                                                         |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing.                                                                                                                                                        |
| First-aid measures after skin contact | : Wash skin with plenty of water. Take off contaminated clothing. If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention.                             |
| First-aid measures after eye contact  | : Rinse eyes with water as a precaution. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| First-aid measures after ingestion    | : Call a poison center/doctor/physician if you feel unwell.                                                                                                                                                             |
| First-aid measures general            | : IF exposed or concerned: Get medical advice/attention. Call a poison center/doctor/physician if you feel unwell. Get medical advice/attention if you feel unwell.                                                     |

#### 4.2. Most important symptoms and effects (acute and delayed)

|                                     |                                                    |
|-------------------------------------|----------------------------------------------------|
| Symptoms/effects after skin contact | : Irritation. May cause an allergic skin reaction. |
| Symptoms/effects after eye contact  | : Eye irritation.                                  |

#### 4.3. Immediate medical attention and special treatment, if necessary

|                                   |                          |
|-----------------------------------|--------------------------|
| Other medical advice or treatment | : Treat symptomatically. |
|-----------------------------------|--------------------------|

### SECTION 5: Fire-fighting measures

#### 5.1. Suitable extinguishing media

|                              |                                                  |
|------------------------------|--------------------------------------------------|
| Suitable extinguishing media | : Water spray. Dry powder. Foam. Carbon dioxide. |
|------------------------------|--------------------------------------------------|

#### 5.2. Unsuitable extinguishing media

No additional information available

#### 5.3. Specific hazards arising from the hazardous product

No additional information available

#### 5.4. Special protective equipment and precautions for fire-fighters

|                                |                                                                                                                                          |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Protection during firefighting | : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

No additional information available

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

### 6.2. Methods and materials for containment and cleaning up

- Methods for cleaning up : Notify authorities if product enters sewers or public waters. Take up liquid spill into absorbent material. Mechanically recover the product.
- Other information : Dispose of materials or solid residues at an authorized site.

### 6.3. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Precautions for safe handling : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear personal protective equipment. Avoid contact with skin and eyes. Ensure good ventilation of the work station. Avoid breathing dust/fume/gas/mist/vapors/spray.
- Hygiene measures : Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace.

### 7.2. Conditions for safe storage, including any incompatibilities

- Storage conditions : Store locked up. Store in a well-ventilated place. Keep cool.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No additional information available

### 8.2. Appropriate engineering controls

- Appropriate engineering controls : Ensure good ventilation of the work station.
- Environmental exposure controls : Avoid release to the environment.

### 8.3. Individual protection measures/Personal protective equipment

#### Hand protection:

Protective gloves

#### Eye protection:

Safety glasses

#### Skin and body protection:

Wear suitable protective clothing

#### Respiratory protection:

Wear respiratory protection. In case of insufficient ventilation, wear suitable respiratory equipment

#### Personal protective equipment symbol(s):

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

- Physical state : Liquid
- Appearance : No data available
- Color : Mixture contains one or more component(s) which have the following colour(s): Colourless White On exposure to light: yellow Colourless to light yellow Yellow
- Odor : There may be no odour warning properties, odour is subjective and inadequate to warn of overexposure.  
Mixture contains one or more component(s) which have the following odour:  
Fruity odour Floral odour Almost odourless Phenol odour Lemon odour Pleasant odour Characteristic odour Strong odour Sweet odour Mild odour
- Odor threshold : No data available
- pH : No data available
- Relative evaporation rate (butyl acetate=1) : No data available
- Relative evaporation rate (ether=1) : No data available
- Melting point : Not applicable
- Freezing point : Not applicable

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

|                                                 |                                  |
|-------------------------------------------------|----------------------------------|
| Boiling point                                   | : No data available              |
| Flash point                                     | : > 100 °C                       |
| Auto-ignition temperature                       | : Not applicable                 |
| Decomposition temperature                       | : No data available              |
| Flammability (solid, gas)                       | : Not applicable, Non flammable. |
| Vapor pressure                                  | : No data available              |
| Vapor pressure at 50 °C                         | : No data available              |
| Relative density                                | : Not applicable                 |
| Solubility                                      | : No data available              |
| Partition coefficient n-octanol/water (Log Pow) | : No data available              |
| Explosion limits                                | : Not applicable                 |

### 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

|                                    |                                                                                                        |
|------------------------------------|--------------------------------------------------------------------------------------------------------|
| Reactivity                         | : The product is non-reactive under normal conditions of use, storage and transport.                   |
| Chemical stability                 | : Stable under normal conditions.                                                                      |
| Possibility of hazardous reactions | : No dangerous reactions known under normal conditions of use.                                         |
| Conditions to avoid                | : None under recommended storage and handling conditions (see section 7).                              |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

|                             |                  |
|-----------------------------|------------------|
| Acute toxicity (oral)       | : Not classified |
| Acute toxicity (dermal)     | : Not classified |
| Acute toxicity (inhalation) | : Not classified |

| <b>CITRONELLOL (106-22-9)</b>                                    |                                                                                  |

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

| <b>PHENYL ETHYL ALCOHOL (60-12-8)</b> |                                   |
|---------------------------------------|-----------------------------------|
| LD50 dermal                           | 2500 mg/kg body weight            |
| LC50 inhalation rat (mg/l)            | > 1,4 mg/l (4 h, Rat, Inhalation) |
| ATE CA (oral)                         | 1610 mg/kg body weight            |
| ATE CA (Dermal)                       | 300 mg/kg body weight             |
| ATE CA (dust,mist)                    | 1,5 mg/l/4h                       |

| <b>D-LIMONENE (5989-27-5)</b> |                                                                                                                     |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------|
| LD50 oral rat                 | > 2000 mg/kg body weight (OECD 423: Acute Oral Toxicity – Acute Toxic Class Method, Rat, Female, Read-across, Oral) |
| LD50 dermal rabbit            | > 5000 mg/kg body weight (Equivalent or similar to OECD 402, Rabbit, Weight of evidence, Dermal)                    |

|                                   |                                                        |
|-----------------------------------|--------------------------------------------------------|
| Skin corrosion/irritation         | : Causes skin irritation.                              |
| Serious eye damage/irritation     | : Causes serious eye irritation.                       |
| Respiratory or skin sensitization | : May cause an allergic skin reaction.                 |
| Germ cell mutagenicity            | : Not classified                                       |
| Carcinogenicity                   | : Not classified                                       |
| Reproductive toxicity             | : Suspected of damaging fertility or the unborn child. |

STOT-single exposure : Not classified

: Not classified

STOT-repeated exposure

Aspiration hazard : Not classified

Symptoms/effects after skin contact : Irritation. May cause an allergic skin reaction.

Symptoms/effects after eye contact : Eye irritation.

## SECTION 12: Ecological information

### 12.1. Toxicity

|                                                           |                                                                                                                        |
|-----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Ecology - general                                         | : The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment. |
| Hazardous to the aquatic environment, short-term (acute)  | : Not classified                                                                                                       |
| Hazardous to the aquatic environment, long-term (chronic) | : Not classified                                                                                                       |

| <b>CITRONELLOL (106-22-9)</b>                   |             |
|-------------------------------------------------|-------------|
| Partition coefficient n-octanol/water (Log Pow) | 3,41 – 3,91 |

| <b>GERANIOL (106-24-1)</b>                      |                                                                                                                                                    |

| <b>PHENYL ETHYL ALCOHOL (60-12-8)</b>           |                                                                                    |
|-------------------------------------------------|------------------------------------------------------------------------------------|
| LC50 fish 1                                     | 220 – 260 mg/l (96 h, Leuciscus idus)                                              |
| EC50 Daphnia 1                                  | 287,17 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna) |
| EC50 72h algae 1                                | 490 mg/l (Scenedesmus subspicatus)                                                 |
| Partition coefficient n-octanol/water (Log Pow) | 1,38 (Experimental value)                                                          |

# SWEET RENDEZVOUS

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

| <b>D-LIMONENE (5989-27-5)</b>                   |                                                                                                                                         |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| LC50 fish 1                                     | 720 µg/l (OECD 203: Fish, Acute Toxicity Test, 96 h, Pimephales promelas, Flow-through system, Fresh water, Experimental value, Lethal) |
| EC50 Daphnia 1                                  | 0,36 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Fresh water, Experimental value, GLP)   |
| EC50 72h algae 1                                | 150 mg/l (OECD 201: Alga, Growth Inhibition Test, Desmodesmus subspicatus, Static system, Fresh water, Read-across, GLP)                |
| BCF fish 1                                      | 864,8 – 1022 (Pisces, QSAR, Fresh weight)                                                                                               |
| Partition coefficient n-octanol/water (Log Pow) | 4,38 (Experimental value, OECD 117: Partition Coefficient (n-octanol/water), HPLC method, 37 °C)                                        |

### 12.2. Persistence and degradability

| <b>CITRONELLOL (106-22-9)</b> |                                     |
|-------------------------------|-------------------------------------|
| Persistence and degradability | Readily biodegradable in water.     |
| Chemical oxygen demand (COD)  | 2,05 g O <sub>2</sub> /g substance  |
| ThOD                          | 2,961 g O <sub>2</sub> /g substance |

| <b>ETHYL LINALOOL (10339-55-6)</b> |                                               |
|------------------------------------|-----------------------------------------------|
| Persistence and degradability      | Biodegradability in water: no data available. |

| <b>GERANIOL (106-24-1)</b>    |                                 |
|-------------------------------|---------------------------------|
| Persistence and degradability | Readily biodegradable in water. |

| <b>HELIONAL (1205-17-0)</b>   |                                               |
|-------------------------------|-----------------------------------------------|
| Persistence and degradability | Biodegradability in water: no data available. |

| <b>HYDROXYISOHEXYL 3-CYCLOHEXENE CARBOXALDEHYDE (31906-04-4)</b> |                                               |
|------------------------------------------------------------------|-----------------------------------------------|
| Persistence and degradability                                    | Biodegradability in water: no data available. |

| <b>PHENYL ETHYL ALCOHOL (60-12-8)</b> |                                                            |
|---------------------------------------|------------------------------------------------------------|
| Persistence and degradability         | Biodegradable in the soil. Readily biodegradable in water. |
| Biochemical oxygen demand (BOD)       | 1,45 g O <sub>2</sub> /g substance                         |
| Chemical oxygen demand (COD)          | 2,5 g O <sub>2</sub> /g substance                          |
| ThOD                                  | 2,6 g O <sub>2</sub> /g substance                          |
| BOD (% of ThOD)                       | 0,558                                                      |

| <b>D-LIMONENE (5989-27-5)</b> |                                    |
|-------------------------------|------------------------------------|
| Persistence and degradability | Readily biodegradable in water.    |
| ThOD                          | 3,29 g O <sub>2</sub> /g substance |

### 12.3. Bioaccumulative potential

| <b>CITRONELLOL (106-22-9)</b>                   |             |
|-------------------------------------------------|-------------|
| Partition coefficient n-octanol/water (Log Pow) | 3,41 – 3,91 |

| <b>ETHYL LINALOOL (10339-55-6)</b> |                                    |
|------------------------------------|------------------------------------|
| Bioaccumulative potential          | No bioaccumulation data available. |

| <b>GERANIOL (106-24-1)</b>                      |                                                                                                 |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Bioaccumulative potential                       | Low potential for bioaccumulation (Log Kow < 4).                                                |
| Partition coefficient n-octanol/water (Log Pow) | 2,6 (Experimental value, OECD 117: Partition Coefficient (n-octanol/water), HPLC method, 25 °C) |
| Partition coefficient n-octanol/water (Log Koc) | 1,85 (log Koc, PCKOCWIN v1.66, Calculated value)                                                |

| <b>HELIONAL (1205-17-0)</b>                     |                                                                      |
|-------------------------------------------------|----------------------------------------------------------------------|
| Bioaccumulative potential                       | Low potential for bioaccumulation (Log Kow < 4).                     |
| Partition coefficient n-octanol/water (Log Pow) | 2,4 (OECD 117: Partition Coefficient (n-octanol/water), HPLC method) |

| <b>HYDROXYISOHEXYL 3-CYCLOHEXENE CARBOXALDEHYDE (31906-04-4)</b> |                                    |
|------------------------------------------------------------------|------------------------------------|
| Bioaccumulative potential                                        | No bioaccumulation data available. |

| <b>PHENYL ETHYL ALCOHOL (60-12-8)</b>           |                                                  |
|-------------------------------------------------|--------------------------------------------------|
| Bioaccumulative potential                       | Low potential for bioaccumulation (Log Kow < 4). |
| Partition coefficient n-octanol/water (Log Pow) | 1,38 (Experimental value)                        |

| <b>D-LIMONENE (5989-27-5)</b>                   |                                                                                                  |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------|
| Bioaccumulative potential                       | Potential for bioaccumulation (4 ≥ Log Kow ≤ 5).                                                 |
| BCF fish 1                                      | 864,8 – 1022 (Pisces, QSAR, Fresh weight)                                                        |
| Partition coefficient n-octanol/water (Log Pow) | 4,38 (Experimental value, OECD 117: Partition Coefficient (n-octanol/water), HPLC method, 37 °C) |

### 12.4. Mobility in soil

### 12.5. Other adverse effects

Ozone : Not classified

## SECTION 13: Disposal considerations

### 13.1. Disposal methods

Waste treatment methods : Dispose of contents/container in accordance with licensed collector's sorting instructions.

## SECTION 14: Transport information

### 14.1. Basic shipping description

In accordance with TDG

#### Transportation of Dangerous Goods

Not regulated for transport

### 14.2. Transport information/DOT

#### Department of Transport

Not regulated for transport

### 14.3. Air and sea transport

#### IMDG

Not regulated for transport

#### IATA

Not regulated for transport

## SECTION 15: Regulatory information

### 15.1. National regulations
